

Rebuttal to attachment 4.

(This Attachment may be used with any Judicial Council form.)

Attachment 4 -- Relationship of Parties

I am a resident of Huntington Beach, California, and have been since November 2012 an elected public official and school official serving on the Ocean View School District Board of Trustees (the "Board of Trustees"). I am also employed as a public teacher in the ABC Unified School District.

Johnson is a resident of Huntington Beach, California, although he does not reside within the Ocean View School District, but has appeared at school board meetings - including as recently as March 6, 2018 - and other public settings where I carry out my duties or am employed, and where he has threatened me.

Johnson also regularly uses social media, including Facebook, to make threats of violence against me since in or about Nov. 2016 to present. Johnson is the owner and/or editor of a website known as "HBSledgehammer.com" ("Website"), through which he has also engaged in the aforesaid course of conduct.

Johnson... "Does not reside in Ocean View School District, but has appeared at school board meetings...

'And Other Public Settings where I carry out my duties or am employed and where he has threatened me..."

The First Statement by Gina Clayton-Tarvin is true. I reside in the adjacent Westminster School District. However, it matters not where I reside. Clayton- Tarvin is hyper active in City wide politics in Huntington Beach. Additionally, I am free to criticize any elected public official, regardless of the location of my residence. If there was any weight to Gina Clayton- Tarvin's assertions, then it would be unallowable to criticize, parody and hold to account the proposed legislation of a United States senator from a state in which you do not live. My residence is not germane to anything related to these charges, Tarvin is an elected public official.

The second statement... "*And Other Public Settings where I carry out my duties*" is categorically false and in my opinion, constitutes perjury. I have seen Gina Clayton Tarvin in a personal setting, 2 or 3 times, always within the context of a public School Board meeting where it is my right to be present. If Clayton-Tarvin is referring to Huntington Beach City Council meetings, where she often speaks and I sometimes attend, that is also my right to be present. A right that has been usurped by the filing of this restraining order.

I have never made a credible threat of violence against Gina Clayton- Tarvin on social media, nor my blog. The "charges" she cites can be easily proven false, through the testimony of the individuals I was communicating with when the statements were made and captured as "Screenshots" by Tarvin or others working in concert with Clayton- Tarvin, to amass a stockpile of no - context word strings and sentences that :

1. Devoid of context, would appear damning and;
2. That they hoped that somehow Clayton- Tarvin could present as "Threats" made against her.

The record and testimony will show that Clayton-Tarvin, or someone working in a conspiratorial capacity on her behalf, "Scraped" the comments from the social media accounts where Johnson shared mutual Facebook friends, 1 or more working in concert with Tarvin to amass "Charges"

Johnson acknowledges ownership of HBSledgehammer.com and asserts that all speech contained within constitutes constitutionally protected speech under numerous legal precedents.
